SNOWFEEL XC NANOCARBON AIRCELL CORE

Smooth As Snow

The XC Snowfeel frame provides improved and outstanding vibration damping properties utilizing racing level cross-country ski technology

Roller skis for Pro training and racing

Marwe produces high quality composite and aluminium roller skis for cross-country ski training and roller ski racing.

Our composite roller skis are handmade in Finland using the same advanced construction as top cross-country race skis, thus providing a very natural ski feel combined with excellent vibration damping and noise reduction properties.

Marwe roller ski wheels are made using exclusive in-house developed materials, which provide outstanding wet grip and durability.
