The Best **Aluminium** Rollerskis

No compromise performance with rugged feeling of skiing

Marwes aluminium skating skis are the favourite choice for numerous national and international roller ski and summer biathlon races. Also, they are the bullseye choice for hard training sessions and other situations where both the athlete and their gear must last from the starting line till the podium.

New **Exel Composite FX** Rollerskis

Snowfeel of Skiing and Exceptional Durability

NEW!

Exel Composite FX frames are the outcome of almost three years of product development and thorough testing together with top athletes. The FX frame provides the best test results and vibration damping properties. It is tougher and more durable than wood core, not to forget the environmentally friendly recyclability. It is an EOL recyclable, durable ski frame with excellent mechanical properties and rupture resistance. The material offers superior vibration damping and elasticity properties directly comparable with snowfeel wood composite frames.

FX frames are produced in three different stiffnesses: **Flex**, **Medium** and **Stiff**.

Skating **620 FX** Snowhow Pro

-  **Frame:** Exel FX
-  **Wheels:** Urethane $\varnothing 100 \times 25$ mm
-  **Weight:** 2,0 kg/pair

Wheelbase: 620 mm
Clearance: 32 mm

Wheel speeds:

- Racing 
- Fast 
- Standard 
- Slow 
- Very Slow 

Classic **700 FX** Snowhow Grit

-  **Frame:** Exel FX
-  **Wheels:** Rubber $\varnothing 80 \times 40$ mm skating
-  **Weight:** 2,1 kg/pair

Wheelbase: 700 mm
Clearance: 30 mm

Wheel speeds:

Marwe Rollerski Bag

Marwe Rollerski Bag is the perfect combination of practicality and functionality. Made from high-quality polyester. It is durable, lightweight, and water-resistant, making it ideal for all your daily skiing activities. The bag can fit two pairs of skis and your most important skiing equipment.

Polyester is a synthetic polymer that can be recycled. Recycling polyester can help to reduce waste and conserve natural resources, as it allows the material to be used again and again instead of being discarded as waste.

Size: 83 x 14 x 16 cm
Weight: 0,4 kg
Material: 100% polyester

Roller Skis for Pro Training and Racing

Marwe produces high quality composite and aluminium roller skis for pro athletes for their endurance and skills training and racing.

Our composite roller skis are handmade in Finland using the same advanced construction as top cross-country race skis, thus providing a very natural ski feel combined with excellent vibration damping and noise reduction properties.

Our aluminium roller skis are very high quality, robust and lightweight. They are manufactured in Finland from aerospace grade aluminium.

Marwe roller ski wheels are made in Finland using exclusive in-house developed materials, which provide outstanding wet grip and durability.
